## Our main areas of activity are:

TECHNOLOGICAL  
PIPE FITTING,  
PRESSURE VESSEL AND  
TANK MANUFACTURING

MANUFACTURE AND  
ASSEMBLY OF STEEL  
STRUCTURES

COMPLETE  
CONSTRUCTION WORKS

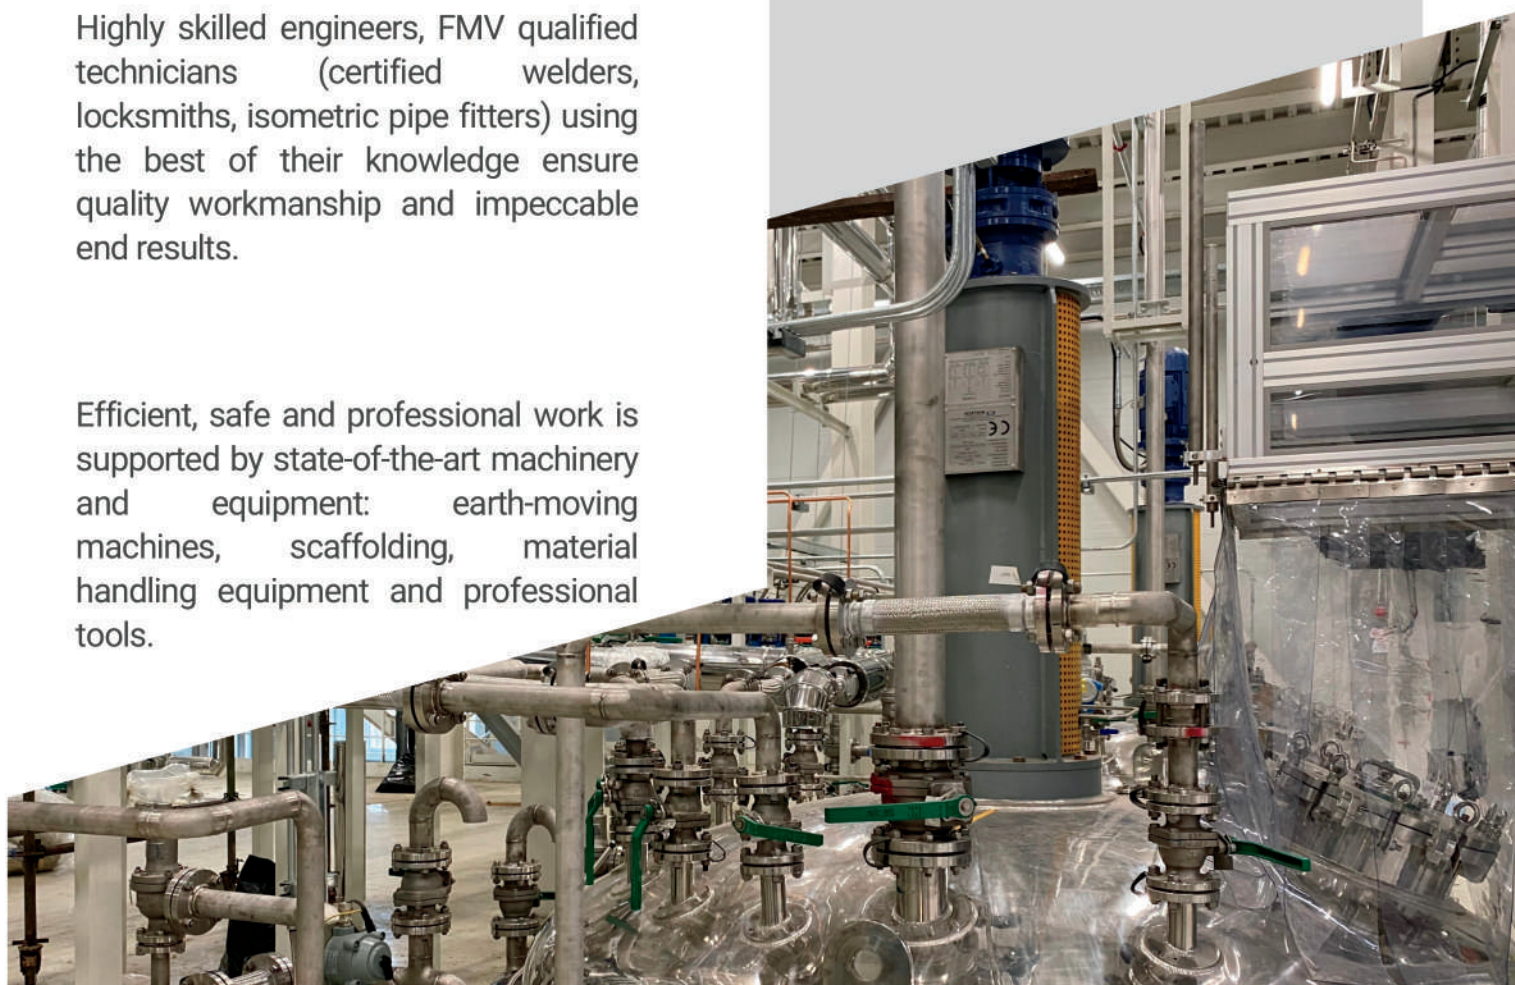

We carry out our activities to the highest standards for the satisfaction of our customers.

We have the appropriate qualifications, company certifications and approvals.

Highly skilled engineers, FMV qualified technicians (certified welders, locksmiths, isometric pipe fitters) using the best of their knowledge ensure quality workmanship and impeccable end results.

Efficient, safe and professional work is supported by state-of-the-art machinery and equipment: earth-moving machines, scaffolding, material handling equipment and professional tools.

WE OPERATE ON THE  
BASIS OF PROFESSIONAL  
KNOWLEDGE AND AN  
ENTREPRENEURIAL  
SPIRIT.

**Technological pipe fitting,  
pressure vessel and tank manufacturing.**

## Technological pipe fitting, pressure vessel and tank manufacturing

We have extensive experience in the following specialised fields:

- Paper mills
- Waste water treatment plants
- Power plants
- Pharmaceutical plants
- Wineries
- Food industry
- Food processing plants

In terms of material qualities:

- Acid resistant
- Stainless steel
- Heat-resistant
- Carbon steel
- PE
- PVC
- ABS

## Steel structures - manufacture, assembly

[www.multisteelhungary.hu](http://www.multisteelhungary.hu)

## Steel structures - manufacture, assembly

We have extensive experience in the following fields:

- Industrial and production halls, warehouses
- Building frame structures
- Supporting structures
- Podiums
- Custom steel structures

In terms of surface treatment:

- Galvanized
- Painted
- Structures with fire-retardant coating

We have a 1000m<sup>2</sup> crane (12-ton bridge crane) manufacturing plant in Dunaújváros, equipped with the necessary machinery for our work, (sawing machines, plasma cutters, shears, presses, etc.)

## Complete construction works

[www.multisteelhungary.hu](http://www.multisteelhungary.hu)

## Complete construction works

**We have extensive experience in the following specialist fields:**

- Civil engineering (utilities, foundations)
- High-rise works (residential buildings, technological buildings, offices up to 3 floors)
- Mechanical and manual earthworks
- Masonry works
- Tiling work (cold and hot tiling)
- Thermal insulation and waterproofing works
- Surface finishing works (plastering, rendering, painting)
- General construction of small buildings: building construction, building services, electrical installation.

**Other activities  
necessary and  
complementary  
to our services:**

- Concrete cutting, concrete drilling, concrete milling.
- Machine installation, machine adjustment with our laser instruments.
- Factory and building maintenance.

## Contact us!
